

SUMMARY

Proficient fresher in MERN stack and web design/development. Skilled in HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Strong eye for design and adept at creating responsive web designs. Quick learner with excellent problem-solving and communication skills. Seeking to contribute to innovative projects and further develop skills in a dynamic environment.

EDUCATION

JABALPUR ENGINEERING COLLEGE, JABALPUR

Master Degree in Computer Application | 2021 – 23
Score : CGPA_7.12

INSTITUTE FOR EXCELLENCE IN HIGHER EDUCATION, BHOPAL

Bachelor's Degree In Computer Science 2018 – 2021
Score: 65.45 %

MODEL HIGHER SECONDARY SCHOOL, BHOPAL (M.P.)

12TH (PCM), SCORE : 84 %

MODEL HIGHER SECONDARY SCHOOL, BHOPAL (M.P.)

10TH (ALL SUBJECTS), SCORE : 85.66 %

SKILLS

- Proficiency in HTML, CSS, **JavaScript**, and related front-end technologies.
- Strong grasp of **React.js** for building interactive user interfaces and single page applications.
- Sound understanding of **Node.js** for server-side development and building RESTful APIs.
- Familiarity with **Express.js** for building scalable and efficient web applications.
- Experience with MongoDB for database management and integration.
- Knowledge of version control systems such as Git for collaborative development.
- Proficient in C, **C++**, and **Python**, with expertise spanning low-level programming, **object-oriented design**, and versatile application development.

PROFESSIONAL EXPERIENCE

The Prime Step, Indore

Web Dev Intern | Sep. 2023 - Present

- I learned database management concepts and how to efficiently store and retrieve data using **MongoDB**, a NoSQL database.
- I grasped the fundamentals of server-side development using **Express.js**, including routing, middleware implementation, and handling HTTP requests.
- I acquired proficiency in building interactive user interfaces and single-page applications (SPAs) with **React.js**, leveraging its component-based architecture and state management capabilities.
- I delved into server-side JavaScript programming with **Node.js**, learning how to build scalable and efficient web applications and RESTful APIs.
- Structuring web pages using HTML.
- Styling and layout design using CSS.
- Implementing interactive features and dynamic behavior using **JavaScript**.

PROJECTS

• Portfolio website:

Developed a personal portfolio website using React and Tailwind CSS, creating a dynamic and interactive user experience with a modern, responsive design. Optimized the site for performance and cross-browser compatibility, and deployed it using Netlify. This project showcases my technical skills and projects effectively.

• Myntra-Clone Website:

Created a Myntra clone website from scratch, employing a stack comprising HTML, CSS, JavaScript, React, Node.js, and Redux. Employed Bootstrap for responsive design, ensuring seamless usability across various devices. Leveraged Redux for efficient state management, enhancing user interaction and functionality. Successfully deployed the site on Netlify, optimizing performance and accessibility.

• TODO Web-App:

Use Node.js with Express for the backend, integrate Tailwind CSS for styling, and create routes in Express for CRUD operations on todo items. This combination allows for a quick and efficient development of a modern and responsive todo web app.

• News Web-App:

Developed a news web-App using HTML, CSS, and JavaScript, with real-time data fetching through API.
